| SQL

EXPERIENCE

THE SPARK FOUNDATION | WEB DEVELOPMENT INTERN | SOURCE CODE

Dec 2022 - Jan 2023

- Gained valuable practical experience working on real-world projects in the field of web development.
- Full-stack developer project - payment-gateway-integration for Animal care.
- Use of Razor paying API.

PROJECTS

HAND GESTURE DETECTION | SOURCE CODE

- Hand gesture detection technology bridges communication gaps for deaf people, enabling seamless interactions.
- This project is based on Data Analysis using python programming language.
- Using teachable machine of Google we create an Keras model and the implement in our code for hand gesture prediction.

PORTFOLIO | SOURCE CODE

- This portfolio website is Django python based.
- In the template file there is an .html file and in static file there is an .js .css and png files.
- It by default uses SQLite Database to store contactme page information through python view.py .
- It is yet to deploy on Heroku.

DAILY VOCAB GENERATOR | SOURCE CODE

- An vocab Generator will generate the word from an API by request to it and the post that word to dictionary API so that it return an meaning of the word.
- It helps to improve a person's vocabulary.
